What!? Evolution in Church!? Really!?

Are we selling our precious Christian faith cheaply just to buy godless science? After all, our evangelical sisters and brothers have fought tooth and nail to keep the likes of Charles Darwin's evolutionary science out of our schools and out of our churches. We don't want our children exposed to this work of the devil. Right?

Well, it's complicated. But, we're ready to untangle the complications

Yes indeed, many of our conservative sisters and brothers in Christ have protested the teaching of Charles Darwin's theory of evolution and even more vehemently protested Social Darwinism, Eugenics, and genocide during World War II. Some of these protests are well worth supporting. But, others are not. We need to sort through them.

We are designating February 10, 2019 as "Evolution Sunday." We're not alone. Hundreds of churches will join us for "Evolution Weekend."
